## **DEBATE FACT CHECK: FRANK LAROSE IS THE STRONGEST ON BORDER SECURITY**

“We don’t need woke elites trying to re-invent themselves as conservatives to gain political power,” said Ben Kindel, spokesman for LaRose for Senate. “It’s going to take battle-tested conservatives like Frank LaRose with both the plan and experience to finally secure our border.”

### **Frank LaRose’s border security plan:**

Shutting down the border:

- Immediately deploy three divisions of U.S. troops to the southern border to stop the flood of illegals.
- Finish President Donald Trump’s border wall on our southern border, utilizing physical barriers and increase deployment of technology and border patrol agents.
- Immediately label the Mexican drug cartels as foreign terrorist entities to both force Mexico’s hand in dealing with them, to allow our government to instantly deport anyone associated with a cartel, and to give our government the power to take out cartel leaders over the border.
- Re-institute a ban on travel into the country from nations who have no security apparatus or ability to verify the background of the travelers.

Removing the incentive to come illegally:

- No amnesty for those who come illegally, and a lifetime ban from ever gaining citizenship or government benefits.
- Deport those who came into our country under the Biden surge and use that as a groundwork to solve the larger illegal immigration problem.

**Bernie Moreno the Pro-Amnesty Champion:**

- In 2016, Moreno Argued The U.S. Should Provide A Pathway To Citizenship For Illegal Immigrants. “Moreno also believes that there should be a pathway to residency for the 11 million unauthorized immigrants already living in the United States, particularly those brought to the country as children.”
