## **RELEASE: LAROSE BLASTS PRESIDENT JOE BIDEN ON BORDER FAILURE**

*LaRose Details Immediate And Aggressive Plan To Secure The Border*

(Columbus) - U.S. Senate Candidate and Green Beret Frank LaRose, who served on the border as part of a counter-narcotics task force, blasted President Biden for his proposed border deal and offered concrete steps the administration needs to take today:

"I saw the crisis firsthand as a soldier in the U.S. Army when I was deployed to the border," said LaRose. "The crisis has turned into a full-scale invasion and there is no room to compromise when it comes to protecting our country. President Biden can take action today as Commander in Chief to protect American lives. It is disgraceful that he continues allowing this to occur."

1. Immediately end the federal government's interference with Texas' efforts to secure their state.
2. Immediately implement a "Remain in Mexico" order.
3. Immediately send three military divisions to the border to halt the invasion.
4. Immediately end amnesty policies.

5. Immediately announce that all asylum claims will be denied and asylum seekers who did not enter legally through a designated port of entry will be deported.
6. Immediately label the Mexican drug cartels as foreign terrorist organizations.
7. Immediately resume construction on President Donald Trump's border wall.
